SIMPLIFIED SOLUTIONS

YOUR CHALLENGES

As a business that makes, imports or distributes consumer products, you have a variety of **CPSIA**, **CPSC** and **ASTM** regulations to follow.

Federal law requires manufacturers and importers to test many consumer products for compliance with consumer product safety requirements.

Testing by a certified third party can be expensive and choosing a test lab is its own challenge; You are taking a risk, in some cases a very big risk.

WHAT WE DO

We save you Time.

Our clients time is valuable and should not be spent navigating through the complexities and red tape of **CPSIA**, **CPSC** and **ASTM** regulations.

With comprehensive knowledge of the regulatory requirements we help our clients cut through the compliance complexities saving them time, helping bring their product to market faster *and* giving them a competitive advantage.

We make it Simple.

We offer solutions designed to reduce your involvement, manage risk, increase time to market, *and* reduce your annual testing costs.

COST ADVANTAGE

We save you Money.

We have negotiated pricing discounts with several *Worldwide accredited* and *certified* lab partners saving clients thousands of dollars in annual testing costs and providing them with another competitive advantage.

DISCOUNTED SERVICES
